FIRST AID

IF IN EYES:	 Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
	Call a poison control center or doctor for treatment advice.
IF SWALLOWED:	Call a poison control center or doctor immediately for treatment advice.
	Do not induce vomiting unless told to do so by a poison control center or doctor.
	Do not give any liquid to the person.
	Do not give anything by mouth to an unconscious person.
IF ON SKIN OR	Take off contaminated clothing.
CLOTHING:	Rinse skin immediately with plenty of water for 15 to 20 minutes.
	Call a poison control center or doctor for treatment advice.
IF INHALED:	Move person to fresh air.
	 If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
	Call a poison control center or doctor for further treatment advice.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS CAUTION

Harmful if inhaled. Avoid breathing vapor or spray mist. Contact with product may result in transient tingling and reddening of the skin. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Wear protective clothing when using or handling this product to help avoid exposure to eyes and skin. Eye protection, gloves, a long-sleeved shirt, and long-legged pants or coveralls are recommended. Do not allow adults, children, or pets on treated surfaces until spray has dried.

1

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in areas near the application site. Use with care when applying in areas adjacent to any body of water. Do not apply on saturated soil. Do not contaminate ornamental fish ponds. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters. This pesticide is highly toxic to bees exposed to direct treatment. Do not apply or allow it to drift to crops or weeds on which bees are actively foraging. Notify State and/or Federal authorities and AgrEvo Environmental Health immediately if you observe any adverse environmental effects due to the use of this product.

NOTICE: It is a Federal offense to use any pesticide in a manner that results in the death of a member of an endangered species.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage: Avoid extremes in temperature. Mix as needed. Do not store diluted material. Store in original container in a secured dry

storage area. Prevent cross-contamination with other pesticides and fertilizers. If the container is leaking or material is spilled on floor or

paved surfaces, absorb with sawdust or other commercially available absorbing material, sweep up and remove to chemical waste area for disposal.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning; or puncture and dispose of in a sanitary landfill, or by incineration; or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

GENERAL INFORMATION

DELTAGARDTM T&O 5SC Insecticide is a suspension concentrate formulation of deltamethrin containing the equivalent of 0.42lb active ingredient per gallon. DELTAGARD T&O 5SC is a pyrethroid product which controls a broad spectrum of insects on turfgrasses and ornamental plants grown for nonfood or nonfeed uses. These areas include outdoor areas where turfgrasses and ornamentals are grown, such as athletic fields, recreational areas, residential landscapes, parks, and public and commercial sites. This product will provide effective knockdown and residual control of the pests listed on this label. Uniform coverage is essential. Begin applications when pests are evident and repeat as needed.

GENERAL HANDLING AND MIXING INSTRUCTIONS

Shake container well before using. Add approximately one-half of the water to the spray tank. Then add the proper amount of DELTAGARD

T&O 5SC Insecticide in water in accordance with the appropriate Application Rate table. Close the tank and agitate vigorously for 5 to 10

seconds, then add the remaining water slowly to avoid excess foam. Thoroughly agitate sprayer to ensure proper suspension. If spraying is interrupted when using a backpack or hand-held spray equipment, reinvert sprayer before use. If spray screens are used, they should be 50 mesh or larger.

DILUTE DELTAGARD T&O 5SC Insecticide ONLY WITH WATER. Prepare spray solution when ready to make applications.

APPLICATION INSTRUCTIONS AND RECOMMENDATIONS TURFGRASS SITES

Apply DELTAGARD T&O 5SC Insecticide as a broadcast application using a conventional hydraulic boom-type sprayer or other suitable equipment for turfgrass pests according to the rates listed in the APPLICATION RATES FOR TURFGRASS SITES table. Apply using a minimum of 2 gallons of water per 1000 sq. ft. Higher volumes (4 to 10 gallons of water per 1000 sq.ft.) may be needed for adequate coverage of dense turfgrass canopies and/or turfgrasses maintained under high mowing heights.

Target insects must be exposed to the insecticide to be controlled. For optimum control of surface-feeding insects, delay irrigation or mowing for 24 hours after application. For subsurface-feeding insects, irrigate with 0.25 to 0.5 inch of water immediately after application.

GENERAL PEST CONTROL OUTDOORS

Use DeltaGard T&O 5SC to control outdoor pests by application as either a perimeter treatment, residual spray or broadcast application to lawns, grounds and ornamental plantings.

TREATMENT SITES: When used in accordance with label directions, DeltaGard T&O 5SC may be applied as a perimeter treatment or as residual spray around residential and non-residential settings. Begin applications when pests are noticed.

ounces per gallon of water to surfaces of buildings, porches, screens, window frames, eves, patios, refuse dumps, and garages.

PERIMETER TREATMENTS: To help prevent infestation of buildings, apply DeltaGard T&O 5SC where pests are active and may find entrance. It is recommended to treat a band of soil or lawn up to 6-10 feet wide around and adjacent to buildings and treat the building foundation to a height of 2-3 feet. Apply as a coarse spray at the rate 0.25 to 1.5 fluid ounces of DeltaGard T&O 5SC per gallon of water. (See Application Rate Table). Use an adequate volume to thoroughly and uniformly wet the barrier area but do not allow run-off to occur.

FIRE ANTS: Apply DeltaGard T&O 5SC as a drench to fire ant mounds. Dilute 1.5 fluid ounces of DeltaGard T&O 5SC per one gallon of water. Gently sprinkle 1-2 gallons of the diluted insecticide over the surface of each mound and surrounding area to a 2-foot diameter. For best results, apply in cool weather, 65 to 80 F or in early morning or late evening hours. Treat new mounds as they appear. Pressurized sprays may disturb the ants and cause migration, reducing product effectiveness.

Tank Mix Recommendations - DELTAGARD T&O 5SC Insecticide has been found to be compatible with many commonly used pest control and fertilizer products. When tank mixing DELTAGARD T&O, observe all restrictions and precautions and limitations which appear on the label of each product. For any tank mixture which has not been previously tested, mix the correct proportion of products and water in a quart jar to ensure proper physical compatibility of the mixture.

Tank mixtures of DELTAGARD T&O 5SC Insecticide with silicone surfactants may improve the control of some insects.

APPLICATION RATES FOR TURFGRASS SITES

Turfgrass Sites	Pests	Rates	Remarks
Areas such	Armyworms, Cutworms,	0.2 to 0.4 fl. oz. per 1000 sq.	Apply when pests become
as residential	Sod webworms	ft. or 8.75 to 17.5 fl. oz. per	evident.
and		Acre or 0.03 to 0.06 lb ai/A	
recreational			Apply as a broadcast spray
lawns, athletic fields,			in a minimum of 2 gallons of water per 1000 sq. ft.

^{*}Suppression Only

RESTRICTIONS FOR TURFGRASS APPLICATIONS

Do not apply this product by aerial application or by any type of chemigation system. Do not apply when wind speed is greater than 15 mph. Apply product using spray nozzles which produce coarse droplet size, such as flood jet nozzles. Do not apply when turfgrass areas are waterlogged or the soil is saturated with water (i.e., will not accept

^{**}For control of fire ants, mix 1.5 fl. oz. DELTAGARD T&O 5SC Insecticide per one gallon of water and apply as a drench treatment to each fire ant mound. Gently apply 1 to 2 gallons over the surface of each mound and surrounding area to approximately 2 feet in diameter. Whenever possible, avoid excessive disturbance of the mounds since high pressure sprays may cause ant migration, reducing product effectiveness. For best results, apply in cool weather duringspring and fall (65°–80°F) or early morning or late evening hours. If possible, apply after a recent rainfall. Make additional treatments as needed and treat new mounds as they appear.

irrigation).

LANDSCAPE ORNAMENTALS

DELTAGARD T&O 5SC Insecticide provides control of a wide range of insects on landscape ornamentals. Mix DELTAGARD T&O 5SC insecticide with the required amount of water according to the APPLICATION RATES FOR ORNAMENTALS table. Thoroughly apply the finished spray to upper and lower leaf surfaces to ensure adequate coverage, but prior to dripping. Be sure to penetrate dense foliage to wet leaves, trunk, and branches.

Plant safety testing has been conducted on many species of ornamental plants under a wide range of environmental and cultural conditions,

and no injury has been observed. If local use information is not available, it is advisable to pre-spray a few plants.

APPLICATION RATES FOR ORNAMENTALS

Ornamentals	Pests	Rate	Remarks
Landscape ornamentals including trees, shrubs, evergreens, and foliage plants	Adelgids Ants* Aphids Azalea caterpillar Azalea lace bugs Bagworms Boxelder bugs Cankerworms California oakworms Cardamom thrips Casebearers Cockroaches Crickets* Elm leaf beetles Elm spanworms European pine sawflies Fall webworms Firebrats Flea beetles Flies Fungus gnats Glassy winged Sharpshooter Grasshoppers Greenstriped mapleworm Gypsy moth (larvae) Imported willow leaf beetles Japanese beetles (adults) Lace bugs Leaf-feeding caterpillars Leaf rollers Leaf skeletonizers Mealybugs Midges* Mimosa webworms Mites*** Orangestriped oakworms Pillbugs Pine shoot beetles Pine tip moths Pinyon spindlegall midges Psyllids Plant bugs Redhumped caterpillar Red imported fire ants Sawfly larvae Silverfish Sowbugs Spiders* Springtails Spanworms Scale insects (crawlers) Spittlebugs Tent caterpillars Ticks		Remarks Apply when pests become evident. Thorough coverage is required for best results. Apply with sufficient water to ensure coverage of upper and lower leaf surfaces.

^{*} The use of DeltaGard T&O 5SC Insecticide for the control of ants, crickets, midges and spiders is limited to ornamental areas and areas adjacent to buildings. Apply as a general spray, concentrating on damp areas beneath 4

shrubbery, around foundations and in areas of tall weeds and grass.

- ** Will provide antifeedent properties on treated ornamentals against Japanese beetles.
- *** Suppression only.

NOTES:

- 1. DO NOT apply DELTAGARD T&O 5SC through any type of irrigation system.
- 2. DO NOT apply this product to edible crops.
- 3. In New York State, product may not be applied to turf within 100 feet of a coastal marsh, or stream that drains directly into a coastal
- marsh. For control of turf insects in New York State, a second application may be made after two weeks if target insect activity persists.
- 4. Not for use in commercial greenhouses, nurseries, sod farms, or grass grown for seed. Not for use on golf course turf.

IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of liability before using this product. If terms are not acceptable, return the unopened product container at once.
